SPECIFICATION: NK SiteSecure Safety Fence, as Drawing NK/SSEC/3, galvanised panel 2m high x 3.4m wide, comprising 38mm diameter tubular frame with radius top and reinforced bottom corners. Panel is clad with 50mm x 261mm mesh, complete with rubber foot and coupler.

*All dimensions represent nominal values.

KEY FEATURES: NK SiteSecure offers a range of products to cater for temporary fencing and access control requirements. Typically used at construction sites or public entertainment venues, the NK SiteSecure range is designed for efficient storage and transportation, rapid installation and through its modular construction, provides customisable temporary fencing boundaries which match your environment. Installation of all fencing is subject to site specific risk assessments and NK recommends due regard should be given to nearby aids to scaling or natural overhangs.
