

NK SiteSecure systems can be further customised to suit your individual needs. Optional enhancements include:

ADVERTISING TARPS & HOARDING

Custom printed polyester mesh tarpaulins to fit temporary fence panels. Reinforced hem and metal eyelets for easy fitting.

NETTING TARPS

Polyester mesh tarpaulin with reinforced hem & metal eyelets. Available in white, green or blue..

SUPPORT BRACES

When used in conjunction with appropriate anchors, support braces increase the stability of temporary fencing by up to 300%.

SPIRAL ANCHORS

Spiral anchors offer excellent in-ground support when erecting temporary fence lines on open soft ground.

PLASTIC BARRIERS

A light weight temporary plastic barrier complete with chapter 8 reflective strip and anti-slip swivel feet. Barrier dimensions 2m x 1.1m.

GRP PAVEMENT PLATES

Made from glass reinforced plastic, the hi-vis anti-slip pavement plate allows safe access and passage over trench excavations.
