

*Custom painted steelwork option shown

GENERAL SPECIFICATIONS

FIXING SYSTEM: A set of structural steel square hollow section posts inserted into a suitably formed concrete base. Cladded with netting using paired tensioned 6mm steel cables, carbine hooks and cable ties.

NET WIDTH: Available in spans up to 30m.

NET HEIGHT: Available in heights of 8, 10, 12, 14, 15 or 16m commencing 2m above ground level.

NET APERTURE: 50 or 100mm aperture 2.5mm diameter.

FINISH: Posts galvanised to BS EN 1461:2009 with nets available in black or green.

KEY FEATURES: NK Sports Ballcatch: A fully certified ball retention system based on a tensioned polyethylene UV resistant knotted sports net spanning up to 30m supported by a series of galvanised posts and steel cables. It is ideally suited for ball sports such as Gaelic football, Rugby, Soccer, Hurling, Cricket and Golf.

*All dimensions represent nominal values. It is assumed that foundations can be formed with ground conditions offering a minimum of 100KN/sqm safe bearing capacity.

NK Sports Ballcatch is a certified structure. Suitability of use and design remain the responsibility of the specifier.

RELATED PRODUCTS

The NK Sports Protection Net is an optional enhancement available on all NK Sports Ballstop systems. A nylon net is suspended 250mm from the fence face offering a high impact resistant area along with an energy absorbing surface to reduce ball speed & rebound.
